Rosemount[™] **CX1100**

In-Situ Oxygen Transmitter

Product benefits

Reliable combustion measurement

- Robust zirconia oxygen sensor provides measurement of furnace exhaust gas critical for boiler trim applications.
- Good measurement repeatability of 0.1% O2 or 1.0% of reading and multiple probe length options to suit your application needs.
- Optional remote mounted LCD display and interface for easy access to process information and simplified maintenance.

CX1100 remote display

- Remote display and interface for configuration, calibration, and maintenance without the need for additional tools.
- Bright, back-lit display and an easy-to-use keypad.

Rosemount CX1100 In-Situ Oxygen Transmitter ordering information

Model	Product description		
CX1100	In-Situ Oxygen Transmitter		
Material	Material Control of the Control of t		
Α	304L stainless steel		
Probe length			
050	1.64 ft. (0.5 m) oxygen probe		
100	3.28 ft. (1.0 m) oxygen probe		
200	6.56 ft. (2.0 m) oxygen probe		
Probe mounting flange			
F20	ANSI/DIN: 4.75 in. / 5.71 in. bolt circle, 0.75 in. holes		
Transmitter	Transmitter		
M7	Remote transmitter with LCD display and interface		
M0	Probe only (no transmitter)		
Product certification			
G6	CSA ordinary location		
Probe mounting hardware			
N1	New installation plate - ANSI pattern		
N2	New installation plate - DIN pattern		
Transmitter mounting hardware			
ТЗ	2-in. pipe / wall mount kit		
Calibration accessories			
F1	Calibration gas flowmeter		

Rosemount CX1100

Specifications

Table 1: System Measurement Specifications

Specification	Description	
Net O ₂ range	0 - 23%	
Repeatability	0.1% of O ₂ or 1.0% of reading, whichever is lower	
Lowest detectable limit	0.05% O ₂	
Process temperature effect	Less than 0.3% O ₂ from 77 to 1292 °F (25 to 700 °C)	
System speed of response to calibration gas	Initial response in less than 3 seconds, T90 in 10 seconds. Response to process gas changes will vary depending on process gas velocity and particulate loading of the diffuser.	

Environmental specifications

Table 2: Probe

Specification	Description	
Probe	Process wetted materials are 304 stainless steel.	
Maximum process temperature	752 °F (400 °C)	

Table 3: Probe Terminations

Specification	Description
Rosemount™ CX1100 probe ambient temperature limits	-4 to 158 °F (-20 to 70 °C)

Table 4: Remote Display

Specification	Description
Materials	Polycarbonate
Ambient temperature limits	-4 to 122 °F (-20 to 50 °C)

Installation specifications

Table 5: Probe

Specification	Description	
Probe mounting range	Vertical or horizontal: 2-in. 150# (4.75 in. (121 mm) bolt circle) and DIN145	
	Note Flanges are flat-faced and for mounting only. Flanges are not pressure-rated. A 2.5-in. diameter hole in the process is required.	
	Many adapter flanges are available to mate to existing flanges.	
Reference air	No instrument air required. Ambient air diffuses into the probe passively. Ensure that ambient air is fresh (20.95% $\rm O_2$).	
Calibration	Semi-automatic manual gas switching. New calibration values are calculated in the remote electronics.	
Cal gases	0.4% and 8% O_2 , balance N_2 recommended. Instrument air may be used as a high cal gas, but is not recommended. 100% nitrogen cannot be used as a low cal gas.	
Calibration gas flow	5 scfh (2.5 l/min) at 15 PSI	

Rosemount CX1100

Table 5: Probe (continued)

Specification	Description
Heater electrical power	120/240 Vac, 50/60 Hz, 1.8 A Max
Traditional architecture cable	Customer-supplied
Power consumption of probe heater	150 watts max. during initial warm-up

Table 6: Remote Electronics

Specification	Description	
Electrical power	120/240 Vac, 50/60 Hz, 1.8 A Max	
Power consumption	150 watts during initial warm-up	
Analog output	4-20 mA. Max load 550 Ohms	
Alarms relays	Two SPDT Form C, epoxy sealed contacts rated 5A, 30 Vdc, 120 Vac, or 230 Vac; user configurable to alarm. Resistive load: 5A at 28 Vdc or 300 Vac Inductive load: 1/8 HP at 120/240 Vac	
Probe sensing cable	3 twisted pair conductors, 22 ga overall shielded cable to connect the TC, O ₂ , and CJC signals	
Heater cable	3 multi conductor 18 ga shielded cable to connect the heater control signal	

Rosemount CX1100 Probe	Shipping weight	Actual weight
19.68 in. (0.5 m)	19 lb. (8.6 kg)	13.5 lb. (6.1 kg)
39.37 in. (1 m)	23 lb. (10.43 kg)	16.8 lb. (7.6 kg)
78.74 in. (2 m)	30.5 lb. (13.8 kg)	23 lb. (10.43 kg)

Rosemount CX1100 Remote Transmitter dimensions in inches (millimeters)	Shipping weight	Actual weight	Part number
6.10 x 6.10 x 5.15 in. (155 x 155 x 131 mm)	4 lb. (1.8 kg)	3 lb. (1.4 kg)	24490-00

Accessory	Part number
Calibration flowmeter	771B635H01
Cal gas adaptor kit to mate to existing tubing arrangement	1A98771H07

Rosemount CX1100 5

Product certifications

See the Rosemount Product Certifications document for detailed information on the existing approvals and certifications.

Directive information

A copy of the Declaration of Conformity can be found at the end of the Quick Start Guide. The most recent revision of the Declaration of Conformity can be found at Emerson.com/Rosemount.

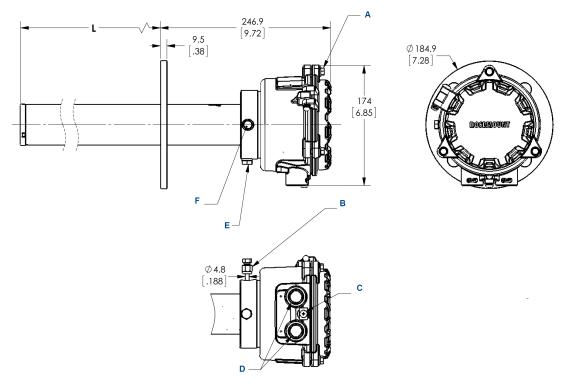

Ordinary location certification

As standard, the device has been examined and tested to determine that the design meets the basic electrical, mechanical, and fire protection requirements by a Nationally Recognized Test Laboratory (NRTL) as accredited by the Federal Occupational Safety and Health Administration (OSHA).

Rosemount CX1100

Dimensional drawings

Figure 1: Probe Installation Dimensions

- A. M6 x 1 x 25 hex head machine screw (3x)
- B. Calibration gas 3/16-in. tube fitting 2.82 liter/min (10 SCFH), 138 kPa (20 psi)
- C. M5 x 0.8 x 10 pan head machine screw
- D. 1/2 NPT conduit connection (power, signal)
- E. Breather port
- F. Calibration gas connection

Note

All dimensions are in meters with inches in parentheses.

Table 7: Removal/Installation

Probe length	Removal envelope
.5 m (19.68 in.)	750 mm (30 in.)
1 m (39.37 in.)	1250 mm (49 in.)
3 m (78.74 in.)	2250 mm (89 in.)

Rosemount CX1100 7

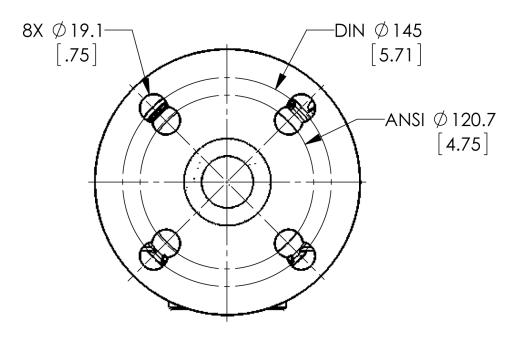

Table 8: Mounting Flange

8

Diameter	ANSI	DIN
Flange dia	185 mm (7.28 in.)	
Hold dia	19.1 mm (.75 in.)	
(4) holes eq sp on BC	120.7 mm (4.75 in.)	145 mm (5.71 in.)
